We ask the right questions.

Quick, straightforward questionnaires help us provide recommendations for benefits and programs that will suit each employee and help them understand the trade-offs of those selections.

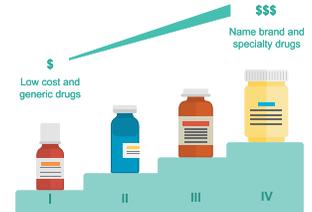

Yes

No

We empower through education.

Friendly graphics, simplified terminology and helpful hints along the way give employees all the information they need to feel comfortable and confident in their choices.

We walk each employee through the process.

Our step-by-step process keeps enrollment simple and straightforward. Then we help with selecting a PCP and setting up their communication preferences.

We help our members work on wellness.

The tool also shows employees how our health programs can help them make simple changes to their daily routine and stay on target to achieve a variety of health and wellness goals.

All of this means less work for you.

Digital Onboarding is designed to save you time and money by eliminating the need for live enrollers, paper forms or third party solutions. And you get real-time management reports so you can see where employees are in the enrollment process and what products were selected.

Contact your UnitedHealthcare representative to learn more.

We have valuable future enhancements planned that will continue to reduce your administrative burden during open enrollment and throughout the plan year.
