“Highest in Customer Satisfaction with Dental Plans, Two Years in a Row!”

UnitedHealthcare®
Yours with the PPO dental plan.

Dental insurance is a popular employee benefit, so you want to offer a high-quality plan featuring extensive choices and coverage. But it also needs to be cost-effective for your business. The PPO dental plan from UnitedHealthcare strikes a good balance, making it a great option for companies that value choice, savings and flexibility.

Employees can see any dentist. But choosing a network provider delivers substantial savings.

Employees can see any dentist, but receiving care from a network provider lowers their out-of-pocket costs and makes benefits go further. In addition, they never have to submit a claim form for visits to dentists in the network.

Preventive care coverage and much more.

Preventive care is covered at little or no cost to your employees. A broad range of additional services is also covered; coverage levels vary based on your specific plan. The plan also includes:

- **Pregnancy dental benefit:** We cover extra visits for dental cleanings and gum treatments, if needed, during pregnancy and the first three months after baby is born. That's because a woman is more likely to develop dental disease during this time.²

- **Annual oral cancer screenings** for all adult patients

Flexible funding options help keep costs down.

With our flexible plan design, you can choose from a variety of deductibles and co-insurance levels. You may decide to pay all, some or none of the premium. Whatever funding option you choose, you and your employees will benefit from attractive network discounts.

Extra benefits to improve health and wellness.

As a comprehensive provider of health care benefits, we know that oral health is linked to overall health. That's why we emphasize preventive care, so small dental problems don't become big ones that have a negative impact on overall health.

To help you encourage your employees to take good care of their teeth and gums, we offer Consumer MaxMultiplier®, FlexAppeal Preventive MaxMultiplier and FlexAppeal Enhanced.
Consumer MaxMultiplier®

Consumer MaxMultiplier encourages regular preventive care by awarding members additional dental coverage dollars when they have annual dental visits. If members see the dentist at least once a year, but the paid claims are less than their annual claim threshold, they receive an account award to add to their annual maximum for the following year. If all their care is in network, they'll earn an additional $100 annual network bonus. And if a member doesn’t spend all of his or her award dollars in a given plan year, he or she can roll them over to use the next year.

Members can earn extra dental coverage dollars with Consumer MaxMultiplier.

FlexAppeal Preventive MaxMultiplier<sup>7</sup>
FlexAppeal Preventive MaxMultiplier encourages members to get regular preventive care by paying for preventive and diagnostic care without applying those claims to the plan’s deductible or annual maximum.

That means plan members can get treatments such as cleanings and X-rays, as well as fluoride and sealants for children, without having those dollars deducted from their annual maximum. The entire annual maximum is left for other dental care services, such as fillings and crowns.

FlexAppeal Enhanced<sup>8</sup>
FlexAppeal Enhanced features three major dental benefits:

- **Additional cleanings and gum treatments:**
  Each member can choose a combination of four adult cleanings or gum treatments per plan year

- **White fillings for back teeth:**
  For a more natural look, members can choose white composite fillings rather than standard silver

- **Dental implants:**
  To replace missing teeth, members can choose the natural look and feel of dental implants, rather than traditional dentures or bridgework
